

Denmead Brass - First Aid Policy

Policy Statement

It is the band's policy to provide first aid support to someone if they are injured or become unwell whilst in the band's care, this policy follows the current guidelines issued by the Health and Safety Executive and takes account of the Health and Safety (First Aid) Regulations 1981.

Legally there is no set limit for the number of first aiders that are required but based on the nature and size of the band it is our policy to have a minimum of 1 trained first aider who will provide first aid support as and when necessary. **NB:** First Aiders are not legally permitted to give any medication to children.

First Aiders

Qualified First Aiders can recognise and manage any immediately life-threatening conditions. If the First Aider feels that further medical assistance is required, they will arrange for an ambulance to be called. All first aiders have attended an approved course in first aid and undertake refresher courses. Certificates are held by the safeguarding Team.

All new members are provided with information in the welcome pack on how to obtain first aid assistance and who the qualified first aiders are.

Equipment

First Aid Boxes provided by Denmead Community Centre are available in several locations within the building. Denmead Community Centre are responsible for replenishing the First Aid boxes and ensuring they contain all necessary equipment and that the equipment is in date.

The band also has its own First Aid kit, along with a GDPR complaint accident book that will be used when necessary.

Giving First Aid

If someone is injured, becomes unwell and needs help, the nearest first aider should be contacted, and asked to attend. The first aider will assess the situation, provide help, request assistance from other first aiders if necessary, and stay with the casualty until they are recovered or make arrangements for further medical assistance if they deem this necessary.

When giving first aid to under 18s which involves physical contact, the first aider should first explain what they need to do and then ask the child's permission to go ahead before starting.

In the rare case that no first aiders are available, the casualty will be assisted in getting to the nearest hospital A&E department.

Medical support

When a first aider thinks that a casualty needs urgent medical treatment, the first aider will arrange for the casualty to be taken to the nearest hospital accident & emergency department – if the first aider thinks it necessary, an ambulance will be called. If the situation is not an emergency but the casualty does need to go to the hospital, then the parent/carer will be called.

Denmead Brass - First Aid Policy

When appropriate or if asked to by the casualty, we will contact their next of kin. Emergency contacts for band members are kept by nominated committee members/band managers. These must be dealt with by a qualified first aider. Spillages of blood, vomit, urine and excrement should be cleaned up promptly. The area should immediately be cleared and cordoned off and the first aider should use the spillage kit found in the first aid box to clean up. The first aider should wear protective gloves and the waste be cleared into the bag provided in the spillage kit. The incident should be reported in the accident book at Denmead Community Centre.

Records

An accident form should be completed every time a first aider provides assistance to a casualty, including when the problem was illness rather than accident. As well as the usual details of the accident (if appropriate) the name of the person giving first aid and summary details of the treatment given should be recorded. The accident book is kept in the foyer at Denmead Community Centre. When away from the community the Band's own accident book should be utilised.

Medical Care of Under 18s

In the event of illness or accident or the need for emergency dental treatment, U18s are accompanied to the local Doctor's surgery, hospital or dental hospital. Any child needing to take medication whilst in the band's care should have written details of this given to the first aider or appointed adult.

Review

This policy is reviewed on an annual basis (see document Footer) or as when necessary, for example if a First Aider leaves the band.
